EDUCATION

Savitribai Phule Pune University, Pune
Master's of Computer Science , CGPA : 7.8

June 2022 – May 2024
Pune, Maharashtra

Tc College Baramati, Pune
Bachelor's of Computer Science , CGPA : 7.9

June 2019 – May 2022
Pune, Maharashtra

CERTIFICATIONS

Full Stack FrontEnd Development
Qspider Training Institute, Pune

Jan 2022 – July 2023

TECHNICAL SKILLS

Languages/Technologies: React.js, Javascript, JSON, HTML5, CSS3, Redux, Core Java, OOPS, JDBC, MySQL, SqlAlchemy, REST APIs, Python, SDLC, Debugging, JWT, GitHub, Gitbash, Hostinger

Developer Tools: VS Code, Eclipse, Pycharm, IntelliJ, Postman, Swagger, Jira

Frameworks: React.js, Spring, Spring Boot, Flask,

Soft Skills: Problem-Solving, Time Management, Adaptability, Quick Learner, Teamwork

EXPERIENCE

Ontologie Ai Pvt. Ltd.
Jr. React.js Developer

Jan 2024 – Present
Baramati, Pune

Face Recognition Attendance System

- * Developed responsive and interactive user interfaces using React.js and modern JavaScript frameworks.
- * Designed and implemented APIs to enable seamless integration between frontend and backend systems.
- * Created reusable and interactive components to enhance user engagement and maintain scalability.
- * Managed state effectively using Redux and React hooks, ensuring efficient application performance.
- * Implemented JWT-based authentication for secure user login and session management.
- * Optimized application performance and ensured cross-browser compatibility for a seamless user experience.
- * Collaborated with cross-functional teams to define requirements and debug complex issues.
- * Integrated MTCNN and FaceNet models with Flask to detect and recognize faces in real-time.
- * Created RESTful APIs for CRUD operations on students, subjects, and attendance data.

PROJECTS

Student Management System | *Flask, React.JS, Python, SqlAlchemy, MySQL*

Jun 2024 – Nov 2024

- * Integrated frontend components with backend services through React.js, ensuring seamless user experiences.
- * Utilized SQLAlchemy ORM for efficient database interactions with MySQL, optimizing data retrieval and storage.
- * Implemented authentication and role-based access control to secure application endpoints.
- * Collaborated closely with a cross-functional team to deliver a scalable and maintainable codebase.
- * Developed and maintained RESTful APIs for key modules like attendance, student records, and subjects using Python Flask.

Online Movies Ticket Reservation | *PHP, JAVASCRIPT, HTML, CSS, MySQL*

Aug 2021 – Oct 2021

- * Developed a dynamic web-based Online Movie Ticket Reservation System to facilitate seamless booking and management of movie tickets. Implemented user authentication, seat selection, and payment integration using PHP and JavaScript.
- * Designed a responsive and user-friendly interface with HTML and CSS to enhance the booking experience. Utilized MySQL for secure data storage and efficient retrieval of user bookings, movie schedules, and transaction records.
- * This system optimized the ticket reservation process, reducing manual effort and improving user convenience.
